TimeWise

Description

Project Descrption

TimeWise is an online time management program which provides people with a visual dashboard to visualize and take control of the way they spend and manage time.TimeWise is a free, open source application for managing tasks, projects and goals through an intuitive web interface. TimeWise will help your organization communicate, collaborate, and get things done. It functions similar to commercial groupware/project management products, but allows for the freedom and scalability. Even better, it will always be free. With TimeWise you will be able to:

- Identify key projects and integrate planning tools to better prioritize your work
- Determine when to say "No" to unnecessary tasks
- Apply techniques to clear the clutter in your mind for better focus and attention

Audience

TimeWise is geared torwards people who work with multiple projects with deadlines. Also, anyone wishing to gain control over their workload and find extra time in their day.
